## EXPERIENCE

---

**2021 – Present**

**Digital Seat Media**

**Austin, TX-(Remote)**

*Junior Front End Developer*

- Responsible for gathering assets as it relates to rosters, school logo, colors, and schedule logos and assembling collegiate and professional sports apps in a JSON editor using the assets and approved application modules assigned through JIRA tickets.
- Wireframing and prototyping low and high fidelity mock-ups using Adobe XD and Figma for company and personal apps and websites.
- Team skill building lessons surrounding JavaScript as well as Photoshop to transform images and implement them into company and personal apps and websites.

**2017 – 2022**

**Life Time Fitness**

**Austin, TX**

*Certified Personal Trainer/Nutritionist/Metabolic Technician*

- Assess the nutritional and physical health of clients and collaborate to implement holistic fitness programs addressing specific health needs, in addition to providing tools to support continual advancement in both the fitness center and at home.
- Utilize a range of technological tools, application software, and technical solutions to assess caloric intake, resting metabolic rate, and active metabolic rate to develop customized plans and monitor progress.
- Collaborate with the metabolic specialist and tech team to share knowledge, analytical data, and technical solutions to promote sustainable client progress and success.

**2016 – 2017**

**24 Hour Fitness**

**Austin, TX**

*Certified Personal Trainer*

- Designed individualized exercise programs tailored to the goals and needs of clients.
- Advised clients on proper nutritional planning and demonstrated use of fitness apps to help track progress.

**2012 – 2015**

**Texas State University**

**San Marcos, TX**

*Dietetic Intern*

*2014 – 2015*

- Led nutrition groups and conducted screenings and assessments for patients.
- Created and delivered presentations on recommendations and education to patients, athletes, and fellow students.

*Graduate Assistant*

*2012 – 2013*

- Instructed a Nutrition Food Systems laboratory, and assisted the professor with research and grant writing, in addition to grading exams and research papers.

## **PROJECTS**

---

*Medical App*

*Present*

- Currently building this app using vue.js to help anesthesiologists better assist their patients as it relates to preoperative care.

*Portfolio*

*2022*

- Created a portfolio from scratch using HTML, CSS/SASS, JavaScript, and hand drawn art to store projects. Procreate and Photoshop were also used to facilitate creating the art work displayed throughout the project.

### *Sports Betting App*

2022

- Created an app demonstrating the ease of navigation among several sports, teams, and games with the option of placing several bets.

### *Digital Seat Website*

2022

- A re-designed web page project, utilizing HTML, CSS, and JavaScript that displays the cutting edge technology of the company as well as information pertaining to fan engagement.

### *Let's Get Motivated*

2019

- Utilized JavaScript to create an application generating random motivational quotes to support fitness aspirations.
