EXPERIENCE

2017 – Present	Life Time Fitness	Austin, TX

Certified Personal Trainer/Nutritionist/Metabolic Technician

- Assess the nutritional and physical health of clients and collaborate to implement holistic fitness programs addressing specific health needs, in addition to providing tools to support continual advancement in both the fitness center and at home

- Utilize a range of technological tools, application software, and technical solutions to assess caloric intake, resting metabolic rate, and active metabolic rate to develop customized plans and monitor progress

- Collaborate with the metabolic specialist and tech team to share knowledge, analytical data, and technical solutions to promote sustainable client progress and success

2016 – 2017	24 Hour Fitness	Austin, TX

Certified Personal Trainer/Nutritionist

- Designed individualized exercise programs tailored to the goals and needs of clients

- Advised clients on proper nutritional planning and demonstrated use of fitness apps to help track progress

2012 – 2015	Texas State University	San Marcos, TX

Dietetic Intern   *2014 – 2015*

- Led nutrition groups and conducted screenings and assessments for patients

- Created and delivered presentations on recommendations and education to patients, athletes, and fellow students

Graduate Assistant   *2012 – 2013*

- Instructed a Nutrition Food Systems laboratory, and assisted the professor with research and grant writing, in addition to grading exams and research papers

PROJECTS

Weather App   *2020*

- Built an app displaying global temperatures using React and API

American Football Scorecard   *2020*

- Used React to develop an app displaying a scoreboard for an American football game

Fun Bus   *2020*

- Created a modern web design for travel blogs, using a LESS compiler to add a stylized navigation bar, header, and buttons

Responsive Design   *2020*

- Created a web page to demonstrate a flexible and compatible design for desktops, tablets, and mobile devices

Great Idea!   *2020*

- Designed a web page project, creating a user interface from scratch utilizing the provided design file and inline-block to reorganize the code from a scrambled layout, and refactored using flexbox

Let's Get Motivated   *2019*

- Utilized JavaScript to create an application generating random motivational quotes to support fitness aspirations
